

# MIMMS Major Incident Medical Management and Support

## Summary

ALSG's **Major Incident Medical Management and Support** is a leading course available for all aspects of dealing with a major incident. It is taught, and its principles practiced, throughout the world.

The MIMMS course objectives are to:

- understand the definition and classification of major incidents
- describe the nature and management of the major incident response
- learn to deliver the medical support needed at major incidents.

## Eligibility

Candidates should be from a medical, nursing, or paramedic background. If you are unsure about your eligibility, please contact the ALSG office to discuss it further.
